

## ElectraSeal Anti Static Concrete Sealer

3 YEAR LIFE EXPECTANCY, COMPLIANT TO ANSI/ESD SPECIFICATIONS

**Limited Warranty:** United SCP Incorporated expressly warrants that for a period of (1) year from the date of purchase ElectraSeal Concrete Sealer, when applied to an unsealed concrete cast in place slab will fully meet United's posted material specifications and will further meet normal (defined as foot traffic) serviceable duration wear resistance. ElectraSeal is further Warranted for electrical conductivity that as applied to said slabs, with no topical sealers and maintained in accordance with recommendations provided by United SCP will provide a resistance to ground of  $<1.0E09$  @  $>45\%rH$ . Within the Warranty Period, the defective material will be exchanged at United SCP's discretion. No responsibility for the cost of removal, reinstallation, production loss nor freight can be assumed under this warranty. Unused defective products must be shipped prepaid to United SCP's factory. All returns must include RMA number plus invoice copy, packing slip or other proof of purchase from United Static Control Products Incorporated. This number may be obtained by calling United's customer service department at 719 676 3928 (option 1).

**Warranty Exclusion:** The foregoing warranty is made in lieu of other product warranties expressed or implied including merchantability and fitness for particular purposes which are specifically or indirectly disclaimed. This Warranty will not apply to defects or damage due to improper substrate preparation, unusual abrasive wear situations, chair caster wear, scratching, neglect, misuse, standing water, concrete vapor emissions (when tested via the standard calcium chloride test method) above 8 lbs. per 1,000 square feet over a 24 hour period, failure to properly maintain coating or improper installation techniques caused by not following posted directions.

**Limit of Warranty:** In no event will United SCP or any authorized re-seller of this product be responsible or liable for any special or consequential losses or damages, whether based on tort, contract or the use of (or inability to use) the product. Replacement of material does not include removal of defective coating, preparation of substrate, production loss nor freight cost. Before using the product users shall determine the suitability of ElectraSeal for their intended use by pretesting electrical conductivity at their install site. The user assumes all risk and liability whatsoever in connection therewith. Fulfillment of United SCP's warranty obligations will be the customer's exclusive remedy and United SCP or seller's limit of liability for any breach of warranty or otherwise.
